Legislative Changes and Application Procedures

DATE: April 15, 2015

ROUTE TO: Medical Staff Office

Legislation renewed the NYS Section 18 Excess Liability Program for 7/1/2015 - 6/30/2016. Generally, physicians and dentists are eligible if they were in the Section 18 Pool for the policy year ending 6/30/2015. The hospital may certify additional physicians and dentists up to its proportionate share of participants in the Pool as of June 30, 2015. Additional participants are again limited to the number of last year's eligible physicians that do not re-apply. New Section 18 applicants will be wait-listed until the hospital's additional eligible slots are released, and the hospital has approved its new applicants. The rest of this memo summarizes the renewal process for the upcoming policy year.

Your facility has physicians and /or dentists participating in the program that have designated your hospital as their primary affiliation. Enclosed are rosters of your insureds for the 2014-2015 policy year based on the Excess carriers' interim Pool billings, as of 2/16/2015. Revisions made after 2/16 are not included on this list. Also enclosed is a memo you may want to distribute to your physicians and dentists who are in the program or are new Section 18 applicants.

The underlying requirements for coverage remain consistent with prior years and are:

1. A physician or dentist must have a primary affiliation with a New York state general hospital.
2. A physician or dentist must have an individual primary policy (not group policy) with limits of at least \$1.3 million per claim and \$3.9 million aggregate from a carrier authorized to do business in New York.
3. A physician or dentist must have completed the qualifying Risk Management course (a biennial requirement).
4. A physician or dentist must render emergency services from time to time at the general hospital.

The excess carriers will mail renewal applications to their existing policyholders for the 7/1/2015 -6/30/2016 policy by May 15, 2015. These physicians and dentists need to complete and return the applications directly to their carrier. New applicants can obtain application forms from the carriers' web sites or by contacting the excess carriers directly.

Contact information for the six NYS Excess Liability Carriers is enclosed. New enrollees are instructed to return completed applications to their hospital's Risk Management office by June 1, 2015 so the office can validate the physicians' and dentists' hospital affiliation and their Section 18 eligibility, as well as other information. Hospitals should send the completed applications of newly affiliated physicians and dentists to the excess carrier by July 1, 2015. Total enrollment closes as of December 31.

If you have any questions regarding the list of insureds, please contact the carrier. If you have questions regarding the Section 18 Excess Liability Pool Program, please call the Pool office at 518.862.0676. If you would prefer to receive this information electronically, please email your contact information to me directly at RLoughridge@HPICgroup.com and I will email your roster to you in an Excel file. Thank you.
